MV CAP VICTOR (Liberian Registered Tanker, Built 2007) 13 July 2024: New York SHP Robert Dreher reported vessel has a non-compliant trap door combination ladder. The vessel's captain advised the pilot that the trap door arrangement will be addressed during an upcoming shipyard period in September 2024.

12. REPORT(S) OF MARINE ACCIDENTS/INCIDENTS UNDER INVESTIGATION:

12a. M/V DEMA (Barbados Registered Bulk Carrier, Built 2011): 30 August 2024. At approximately 1425, while underway in the Kill van Kull at the KVK 8 buoy, under the conn of Sandy Hook Pilot Joshua Pieterse, the M/V DEMA lost steerage. The Pilot ordered the engine full astern and dropped the anchor. The pilot then called for tug assistance and notified the Coast Guard. At approximately 1425 the vessel's starboard bow appeared to touch the south bank of the KVK before swinging back to the middle of the channel. After the ballast tanks were sounded to confirm that the hull had not been breached and confirming that the rudder was working properly, the vessel was brought to Bay Ridge Flats Anchorage with the assistance of two tugs. The vessel was subsequently cleared to sail by the Coast Guard. Drug and alcohol tests were administered to the Pilot and were negative. Ship related issue; no violation of the New York Navigation Law or the New York Codes, Rules and Regulations. No pollution or personal injury. The Board voted to close the case.

12b. M/V BBC NYHAVN (Antiqua Barbuda Registered General Cargo Ship, Built 2012): 23 August 2024. After leaving the Port of Coeymans and transiting southbound in the Hudson River under the conn of Hudson River Pilot Paul Chevalier, the vessel's controllable pitch propeller changed to zero pitch without an engine order. The vessel was able to regain pitch control and proceeded to anchor at Hyde Park for inspection by class surveyors. The Coast Guard was notified and after repairs were made the vessel was cleared to sail. Ship related issue; no violation of the New York Navigation Law or the New York Codes, Rules and Regulations. No pollution or personal injury. The Board voted to close the case.

12c. M/V EAGLE TURIN (Singapore Registered Tanker, Built 2008): 5 August 2020. This incident involves the tragic fatality of Sandy Hook Pilot Timothy Murray resulting from a fall off a pilot ladder and onto the Pilot Launch AMERICA while boarding the M/V EAGLE TURIN at approximately 2230 upon its arrival at Ambrose Pilot Station. The P/L AMERICA then immediately proceeded back to the Pilot Boat NEW JERSEY (a three-minute transit) to pick up medical supplies, a stokes litter, and crew with paramedic training before departing for Staten Island. The U.S. Coast Guard, New York City Fire Department, and New York City Police Department were all notified. Crew personnel administered CPR and used the AED unit while proceeding to Staten Island. New York City Police Department Personnel were waiting at the Sandy Hook Pilot Base where Captain Murray was transferred to an ambulance and taken to Staten Island University Hospital.

After the incident, the EAGLE TURIN proceeded to anchor at the direction of the U.S. Coast Guard. On the morning of 6 August 2020, Sandy Hook Pilot Kevin Walsh piloted the vessel to Stapleton Anchorage where a further investigation ensued with the U.S. Coast Guard, Sandy Hook Pilot Association, and Executive Director Garger. The Board was designated as a Party in Interest by the U.S. Coast Guard. At the 10 January 2023 meeting, the Board was updated on the status of ongoing litigation against the vessel owner arising out of the incident. At the 17 January 2023 meeting, the Board reviewed the Third-Party Complaint filed by the vessel owner against the Sandy Hook Pilot Association. At the 21 March 2023 meeting, the Board reviewed the Sandy Hook Pilot Association's Answer to the Third-Party Complaint. At the 9 May 2023 meeting, the Board discussed the Coast Guard's Report of Investigation. At the 23 May 2023 meeting, the Board discussed the status of the litigation. At the 5 July 2023 and subsequent meetings, the Board discussed the Subpoenas served on the Board. At the 3 October 2023 meeting, the Board noted the Confidentiality Order entered by the Court. Continued on the docket.

13. SAFETY AND SECURITY IN PILOTAGE WATERS:

13a. M/V DALI Collision with the Francis Scott Key Bridge: At approximately 0129 hours on 26 March the Singapore registered containership M/V DALI was transiting to sea out of Baltimore Harbor in Baltimore, Maryland, when it experienced a loss of electrical power and propulsion, veered off course, and struck the Francis Scott Key Bridge (Key Bridge), causing part of the bridge to collapse onto the vessel and also into the Patapsco River. The casualty, which resulted in 6 fatalities and closure of the Baltimore Harbor shipping channel, is currently under investigation by several government agencies, including the National Transportation Safety Board (NTSB), United States Coast Guard, and the FBI. The NTSB issued its preliminary report on 14 May 2024 and an investigative update on 24 June 2024.

At the 2 April 2024 meeting, the Board discussed the M/V DALI collision and will continue to discuss the incident at subsequent meetings. At the 4 June 2024 meeting, the Board discussed general procedures for pre-departure and arrival testing requirements and the master-pilot exchange. Continued on the docket.

13b. The Board has previously reviewed cruise ship pier allisions in the Port of New York/New Jersey and elsewhere. The Board has also reviewed 46 U.S.C. Section 8501 regarding the coordination of federal and state law requirements with respect to pilotage of cruise ships when the master docks the vessel and has noted incidents in Alaska where cruise ships were docked by the ship's master with a compulsory state pilot aboard. In light of the foregoing, the Board recommended that the SHPA work with cruise lines calling at the Port of New York to develop a joint training program that would improve communications between state licensed pilots and cruise ship masters. At the 28 March 2023 meeting, the Board discussed cruise ship dockings with NYSHPA President Captain James Mahlmann. Continued on the docket.

13c. The Board has previously advised the Army Corps of Engineers New York District (ACOE) of its concerns with the lack of visibility of large, unlit mooring buoys, especially during periods of darkness, located within certain designated federal anchorages in New York Harbor. Continued on the docket.

13d. The Board has reviewed correspondence from the SHPA and the Northeast Marine Pilots Association regarding the proposed North Atlantic Right Whale Seasonal Speed Zones regulations. At the 28 March 2023 meeting, the Board discussed the Seasonal Speed Zone Regulations with NYSHPA President Captain James Mahlmann. At the 26 December 2023 meeting, Commissioner Hendrick updated the Board regarding proposed legislation addressing the regulations. Continued on the docket.

14. In view of ship pilot ladder boarding accidents involving both New York and New Jersey State Pilots in the Port of New York, the Board of Commissioners formed a special Pilot Transfer Subcommittee. The Subcommittee consists of the Board President (Mercante), Executive Director (Garger), and members of the Board (Ahlstrom and Rowland). At the 22 February 2022 meeting, the Board reviewed the revised International Chamber of Shipping Industry Guidance on Pilot Transfer Arrangements. The New Jersey Maritime Pilot and Docking Commission also formed a Pilot Safety Committee to evaluate pilot transfer arrangements and issued its report on 6 November 2020. The minutes of the 21 December 2021 Board Meeting are incorporated herein by reference. At the 15 November 2022 meeting, the Board was advised that the IMO Safety Committee will open the SOLAS Convention for amendment with respect to pilot boarding arrangements.
